The parties agree to convene resources and processes and leverage resources. They agree to create career pathways to meet the needs of business and industry by establishing job relevant training creating a pipeline of skilled labor to meet employer demand in Middle Tennessee and the surrounding region. Partners agree to refer individuals and companies to Partner agencies for services required but not delivered by the referring agency. Any Partner may refer customers to a Partnering Agency for appropriate services via electronic, telephonic, or written procedures or using other means mutually agreed upon for the referral format.

**3. VISION FOR THE SYSTEM (Tennessee Combined State Plan Section II(b)) (Tennessee MOU/IFA Instructions Page 5) If additional space is needed, please include an attachment referencing this section.**

- *Describe the shared vision and commitment of the local board and required partners to a high-quality local workforce delivery system (vision must be consistent with Federal, State, regional, and local planning priorities, as well as the Governor's Guidelines)*
- *Describe which aspects of the vision are currently in place*
- *Outline the steps to be taken and the general timeline for how required partners will implement any aspects of the vision that are not yet in place*

The mission of the NMTWB and its partners is to help job seekers access employment, education, training, and resources to succeed in the labor market and to match employers with the skilled workers needed to compete in the global economy. The NMTWB delivers this through the American Job Center system providing high quality customer service to employers and job seekers. The NMTWB sets the strategic direction through aligning workforce resources and monitors performance to ensure job seekers meet and exceed employer demands to include performance requirements under WIOA. The NMTWB aligns its focus and vision with the Governor's goals to: Prioritize the strategic recruitment of target industries; assist existing Tennessee businesses in expansion and to remain competitive; supporting regional and rural economic development strategies; and investing in innovation and reducing business regulation.

The MOU supports the vision of the signatory Partners to align workforce programs and activities through partner collaboration in an effort to increase employment, education and earnings for individuals, while preparing employees for the employers and addressing the economic needs of the Local Workforce Development Area. The NMTWB and partners of this agreement collaborate effort and focus resources to deliver a seamless Workforce System through the American Job Centers, specifically Title I, II, III, IV, and economic development to grow existing industry and attract new business to the area. The functional alignment of the teamwork of parties of this agreement provide the framework to meet and exceed the following objectives:

- \* Identify, assess, and certify skills for successful career
- \* Promote economic development by connecting workforce development with job creation
- \* Increase employer engagement with the workforce system
- \* Expand education to create career pathways from high school through higher education
- \* Increase work based learning and summer youth employment opportunities

- \* Expand program services including IETs to high demand industries and top tier employers
- \* Increases services and advocacy for justice involved populations
- \* Improve bidirectional referrals between WIOA partners
- \* Increase access to remote services through AJC Virtual Access Points
- \* Quarterly cross trainings contribute to knowledge of partner agencies and their scope of work, while allowing space for collaborative planning
- \* Project REAP and tablets for jails
- \* Increase the Labor Force Participation Rate in Northern Middle

#### Action Steps

- \* Increase referrals from AE to Vocational Rehab, SNAP E&T, Title I, Office of Reentry etc.
- \* Increase partnerships on workforce development initiatives with WIOA funded agencies
- \* Improve the awareness of program offerings and events sponsored by other WIOA funded partners within our local client networks
- \* Improve services to employers and direct job placement to increase Labor Force Participation Rate
- \* Expand project REAP
- \* Increase referrals for youth through the Summer Youth Employment Program.
- \* Improve unemployment insurance services through direct assistance in the American Job Centers.

Each of these objectives have a common theme of developing the necessary skills for good employment for participants and skilled workers for employers. The partners have collaborated to integrate services in the American Job Centers to provide a seamless flow for participants to access the necessary services without program emphasis. This meets the Governor's vision of leveraging existing assets by coordinating the partner services to efficiently use the appropriate programs(s) for each participant in the most positive course of action to a high-quality job. The Business Services Team work with existing and new businesses to offer services available to them through the American Job Centers. Reaching out to the employers also helps the Center partners identify the in-demand jobs available in the community and ways to best serve the employer. This meets the Governor's vision of attracting new businesses to the state while helping existing businesses expand and remain competitive. Since the LWDA is made up of rural, suburban and metro areas we have the unique challenge to meeting the needs of job seekers and employers and support the diverse economic development strategies. The partners of the American Job Centers in the NMTWA feel that the delivery of each vision is progressing toward the mutual visions of the Governor, State Board, Local Board and partners.

Service delivery is divided into three functions: Welcome Function (Basic Career Services), Skills/Career Development Function (Individualized Career Services), and Business Services Function. Cross training is provided to staff in order to serve participants efficiently with AJC basic services. Through knowledge of partner programs, staff can make the referrals appropriately to better serve participant needs. The relationship between the partners is open and available to participate in conversations and meeting for resolution to any difficulties that may arise.

Any party to this MOU may refer customers to a Partnering Agency for appropriate services via electronic telecommunication or written procedures using a mutually agreed upon referral format. To continue the collaboration and integration of the partner services, all partners are committed to increasing knowledge of partners programs through cross-training and make all services available to each customer through referral as needed. ### **Trade Readjustment Assistance –**

Upon the receipt of a Trade Adjustment Assistance petition, the TAA Unit verifies if assistance efforts are already underway. If this is the first notification, the Rapid Response unit contacts the employer to begin the process of providing the full array of services and benefits available.

The Rapid Response process consists of these steps:

- \*Schedule and conduct mass meetings once a WARN Notice or Certified Trade Petition is received.

- \*Provide trade-affected workers with information regarding re-employment services (WP, WIOA partners),

- \*Unemployment Insurance (UI), TAA services, and Trade Readjustment Assistance (TRA).

Funding is essential to provide services to dislocated workers. Leverage funding, when possible, can better ensure that workers receive the necessary assistance. Case management funds along with WIOA partner funds enables a full assessment of trade-dislocated workers and also ensures re-employment services for gainful employment. Additional funding information has been detailed in the explanation of distribution of funds for core programs.

### **Trade Adjustment Assistance (TAA) –**

Upon the receipt of a Trade Adjustment Assistance petition, the TAA Unit verifies if assistance efforts are already underway. If this is the first notification, the Rapid Response unit contacts the employer to begin the process of providing the full array of services and benefits available. The Rapid Response process consists of these steps:

- Schedule and conduct mass meetings once a WARN Notice or Certified Trade Petition is received.

- Provide trade-affected workers with information regarding re-employment services (WIOA partners), Unemployment Insurance (UI), For additional information see attachment

### **Migrant & Seasonal Farmworkers –**

The program's main objective is to conduct outreach and assessment of low income farmworkers in order to assist those who qualify with job training and placement services as listed in the local service matrices.

Services are accessible at all AJCs in the local area through direct linkage and cross-training of partner staff. For instance, Title I staff screen applicants for farmwork backgrounds in order to determine if a referral can be made. Migrant & Seasonal Farmworkers staff may also meet with potential clients on-site at the AJC if necessary.

### **National Farmworker Jobs Program (NFJP) –**

The National Farmworker Jobs Program (NFJP) actively engages with migrant and seasonal farm workers, assessing the needs of low-income individuals to determine eligibility for job training and placement services, as outlined in the local service matrices. NFJP services are accessible at all AJCs in the local area through direct linkage and cross-training of partner staff. Referrals between NFJP and local AJCs are structured to ensure farm workers receive comprehensive support. For example, when a farmworker seeks assistance at an AJC, Title I staff will screen them for a farmwork background to determine if a referral to NFJP is appropriate. If eligible, the individual will be referred to NFJP for additional support and services. NFJP staff can also meet with potential clients on-site at the AJC if needed. Additionally, NFJP staff will refer participants to AJC services to expand their access to training, job placement, and financial assistance. This collaborative approach leverages the combined resources and expertise to better serve farmworkers and their families.

### **Community Service Block Grant (CSBG) –**

Not in AJC

### **Senior Community Services Employment Program (SCSEP) –**

Families First, the state's Temporary Assistance for Needy Families (TANF) program is a workforce development and employment program. The Families First/TANF Program emphasizes work, training, and personal responsibility. It is temporary and has a primary focus on gaining self-sufficiency through employment. The Families First/TANF program helps participants reach this goal by providing temporary cash assistance, transportation, child care assistance, educational supports, job training, employment activities, and other supportive services.

The TDHS TANF Case Managers refer work mandatory customers to our Work Activity Placement and Monitoring (WAPM) provider to place customers in a work activity and monitor for compliance. The TANF Case Managers and the WAPMs are not onsite at the AJCs, however, individuals may initiate an application for Families First/TANF services through the following link: Consumer Service Portal - Customer Service (<https://onedhs.tn.gov/csp>).

### **Second Chance (Reentry) –**

Administered by the Tennessee Department of Labor and Workforce Development, Re-entry is the transition from incarceration-life in prison, jail, or juvenile justice facilities-to-life in the community. Ex-offenders are those who either; a) have been subject to any stage of the criminal justice process for committing a status offense or delinquent act; or b) require assistance in overcoming barriers to employment resulting from a record of arrests or convictions. WIOA defines "ex-offenders" as a subgroup of individuals who face a significant barrier to employment. - *To complete this section, see the Individual AJC Budget Template instruction sheet – Attachment II and the Infrastructure Funding Agreement – Attachment III.*
- *For the purposes of this section (12), only provide a narrative explanation of cost sharing services*
- *In the event that an agreement cannot be reached among partners, 20 CFR 678.750 will apply:*
  - (a) The Governor must establish a process, described under sec. 121(h)(2)(E) of WIOA, for a one-stop partner administering a program described in §§ 678.400 through 678.410 to appeal the Governor's determination regarding the one-stop partner's portion of funds to be provided for one-stop infrastructure costs. This appeal process must be described in the Unified State Plan.*
  - (b) The appeal may be made on the ground that the Governor's determination is inconsistent with proportionate share requirements in § 678.735(a), the cost contribution limitations in § 678.735(b), the cost contribution caps in § 678.738, consistent with the process described in the State Plan.*
  - (c) The process must ensure prompt resolution of the appeal in order to ensure the funds are distributed in a timely manner, consistent with the requirements of § 683.630 of this chapter.*
  - (d) The one-stop partner must submit an appeal in accordance with State's deadlines for appeals specified in the guidance issued under § 678.705(b)(3), or if the State has not set a deadline, within 21 days from the Governor's determination.*

The operating budget of the one-stop service delivery system is the financial plan to which the one-stop partners, CLEOs, and LWDB in the local area have agreed in this MOU that will be used to achieve the goal of delivering services in the local area. To achieve this, each partner completed a budget for each AJC per the TDLWD Workforce Services MOU/IFA Guidance. These individual budgets were then consolidated into a master budget that consists of costs that are specifically identified in the statute.

Infrastructure costs, defined in WIOA sec. 121(h)(4), include non-personnel costs such as:

- 1) Rental of facilities
- 2) Utilities and maintenance
- 3) Equipment (including assessment-related and assistive technology)
- 4) Technology to facilitate access to the One-Stop, including planning and outreach activities
- 5) Costs of the use of the common AJC identifier such as signage and supplies

Additional costs include:

- 1) Applicable career services as described in WIOA sec. 134(c)(2)
- 2) Shared operating costs and shared services, described in WIOA sec. 121(i), that are related to the operation of the one-stop delivery system, but do not constitute infrastructure costs, such as initial intake, assessment of needs, appraisal of basic skills, identification of appropriate services to meet such needs, referrals to partners, and business services. These costs may include personnel expenses for shared Welcome Function staff.
- 3) Direct costs, as described in 2 CFR 200.413, including costs identified specifically with a particular final objective, such as a federal award, or other internally or externally funded activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy (i.e. Title I Individual Training Accounts).

In accordance with WIOA Section 121(h), the following programs offering services in the Northern Middle TN are required to contribute to infrastructure costs per the TDLWD Workforce Services MOU/IFA Guidance:

- 1) WIOA Title I Adult, Dislocated Worker, and Youth
- 2) WIOA Title II Adult Education and Literacy
- 3) WIOA Title III Wagner Peyser
- 4) Title IV Vocational Rehabilitation
- 5) Activities authorized under Title V of the Older Americans Act of 1965
- 6) Career and technical education programs at the postsecondary level authorized under the Carl D. Perkins Career and Technical Education Act of 2006
- 7) Chapter 2 of Title II of the Trade Act of 1974
- 8) Chapter 41 of Title 38, United States Code
- 9) Employment and training activities carried out under the Community Services Block Grant Act
- 10) Programs authorized under State unemployment compensation laws
- 11) Part A of Title IV of the Social Security Act

Actual costs will be billed rather than estimates or budgeted amounts. The one-stop operating budget will be periodically reconciled against actual costs incurred and adjusted accordingly. Line item budgets may be adjusted between reconciliations as needed. This reconciliation will ensure that the budget reflects a cost allocation methodology that demonstrates how infrastructure costs are charged to each partner in proportion to the partner's use of the one-stop center and relative benefit received. To determine each partner's expected contribution to infrastructure costs, Northern Middle TN utilized the Infrastructure Funding Agreement (IFA) template provided by the TDLWD. As agreed upon by the partners, the contribution per partner will be based on (1) Full-Time Equivalents (FTEs)

Also included on the Infrastructure funding agreement will be:

- 1) A listing of all partners present in the local area
- 2) Whether the partners are physically located within an AJC or accessible through direct linkage
- 3) The infrastructure, additional, shared-direct, and direct costs of all partners and centers
- 4) The allocation base for all costs
- 5) The number of staff, weekly staff hours, office payment ration, and number of offices for each partner
- 6) The assigned square footage for each partner and the square footage shared amongst partners
- 7) Direct costs by center
- 8) Total partner contributions by allocation base
- 9) Total partner contributions by cost category

In the event that a good faith negotiations can not be reached, the Northern Middle Workforce Board will follow directives of Tennessee Department of Labor's MOU/One-Stop Delivery and Infrastructure policy
